

World map showing the distribution of the 'lat' variable by country. The map uses a color scale from dark blue (low values) to light yellow (high values). High values are concentrated in North America, Europe, and Australia. Low values are found in parts of Africa and South America. The map includes a latitude axis at the bottom ranging from -100 to 100.

World map showing the distribution of the 'lat' variable. The map uses a color scale from dark blue (low values) to light yellow (high values). High values are concentrated in North America, Europe, and parts of Asia. Low values are found in South America, Africa, and Australia. The map includes a latitude axis at the bottom ranging from -100 to 100.
